

Participating Raters

BayREN Home+

Raters may work with a BayREN Home+ Participating Contractor to help a homeowner complete an energy upgrade and receive incentives; however, Home Energy Ratings are not required in order to receive incentives. The list below includes qualified raters working in the Bay Area. The city listed indicates the city in which the business is based. Please contact Raters directly to determine if they work in your city. A Home Upgrade Advisor can assist in choosing a rater or a contractor.

Call an Advisor toll free at (866) 878-6008.
